

reCIRCLE UNIQUE

Your Brand. Your Color. Your reCIRCLE

What is reCIRCLE UNIQUE?

reCIRCLE UNIQUE enables companies to integrate reusable solutions into their own brand identity.

Existing anthracite reCIRCLE BOXes can be customized with your logo or design. For a fully bespoke brand appearance, we can produce your own reCIRCLE BOXes or ISY cups in your desired corporate color from an order quantity of 6,000 units. Upon request, the BOX, ISY cup, or lid can also be personalized with your logo, slogan, or an individual design.

💡 *Whether as an employee gift, a customer giveaway, or part of an internal campaign, reCIRCLE UNIQUE combines brand visibility with a practical everyday solution.*

Why choose reCIRCLE UNIQUE?

Many companies want to do more than simply communicate responsibility. They want to make it visible. With a customized reCIRCLE BOX or ISY cup, you create a practical everyday companion that is used regularly and represents your company wherever it goes.

reCIRCLE products stand for:

- Reducing waste in everyday life
- Responsible use of resources
- A corporate culture that is actively lived
- Long-term brand visibility
- Tangible impact instead of single-use promotional items
- Employee and customer engagement

Your brand is not just seen, it is used.

More than a gift

reCIRCLE UNIQUE is the perfect addition to your company culture and employee engagement initiatives.

Welcome gift for employees

Welcome new team members with a high-quality reusable product in your corporate colors and demonstrate your shared values from day one.

Gift for customers and business partners

Present a practical product with genuine everyday value that keeps your brand visible over the long term.

Internal campaigns and challenges

Use BOXes or ISY cups as part of waste reduction initiatives or employee programs and encourage shared goals across your team.

In-house catering

BOXes and ISY cups can also be integrated into everyday business operations, for example for takeaway offers in company restaurants or for meals and beverages on the go.

Visible impact for ESG and sustainability reporting

reCIRCLE UNIQUE can become part of your ESG, CSR, or sustainability reporting activities, demonstrating how concrete measures can be integrated into everyday business operations.

reCIRCLE BOXes and ISY cups are particularly well suited for companies that want to make their commitment to the circular economy, waste reduction, and resource efficiency visible and measurable.

Your customization options

Branding on existing BOXes

The anthracite reCIRCLE BOX can be customized with your logo or design, making it an ideal solution for smaller projects, employee gifts, or customer giveaways.

Your own corporate color

From 6,000 units onwards, we can manufacture reCIRCLE BOXes or ISY cups in your custom corporate color (for ISY cups, the lid can be produced in your preferred color), creating a distinctive and recognizable brand presence. In addition, the BOX or ISY cup can be personalized with your logo, slogan, or campaign design.

Branding options

Pad printing

The ideal solution for simple and durable logos. With pad printing, your design is applied directly to the BOX, ISY cup, or lid. This method offers excellent durability and is particularly suited to companies looking for long-lasting brand visibility.

Digital printing

The flexible solution for creative and colorful designs. Digital printing enables multi-color logos, illustrations, and more complex artwork to be applied directly to the BOX or its lid. This offers maximum design flexibility and creates a highly distinctive brand appearance.

Sticker solution

The simple and cost-effective option. For smaller projects or limited-time campaigns, high-quality water-resistant and heat-resistant stickers can be applied to the BOX, ISY cup, or lid. This allows for customized branding with minimal effort and investment.

Costs

Pricing depends on the order quantity, selected product version, and chosen branding options. We would be happy to advise you personally and prepare a customized quotation for your project.
